SUMMARY

- I am an enthusiastic student fascinated by competetive programming and data structures, open to learn new tools and technologies. and curious about their application in real-world problem-solving. My primary focus is on harnessing skills to excel in the realm of web development, to create engaging and user-friendly web experiences.

EDUCATION

- **Undergraduate Degree** **(2021-present)**
  Pune Institute Of Computer Technology, Pune
  CGPA: 8.6

- **Higher Secondary Certificate(MSBSHSE)** **(2021)**
  Abhishek Junior College Chinchwad, Pune
  Percentage: 82.33

- **Secondary School Certificate(CBSE)** **(2019)**
  Podar International School, Chinchwad, Pune
  Percentage: 90.2

SKILLS

- **Programming Languages**
  C++, HTML, CSS, JavaScript

- **Databases**
  MYSQL, MongoDB

- **Web Dev Tools**
  Node, VSCode, Bootstrap

- **Courses**
  OOP, DSA, DBMS, Software Engineering

PROJECTS

- **Food Ordering Website**
  Developed a user-friendly website used for food ordering system. The website features an intuitive interface, a comprehensive menu with detailed descriptions. The skills used as a front-end developer were HTML, CSS, JavaScript.

- **IPL Match Prediction (Currently working on)**
  Creating a machine learning model which helps to predict the winner of an IPL match. Used the dataset available on kaggle for different matches of IPL. Working on Decision Tree Model which will help for prediction.

INTERESTS/HOBBIES

- **Volleyball, Music, Travelling, Coding**
